

SyncMaster™ 24" analog/digital LCD monitor

The SAMSUNG SyncMaster 244T is a pivoting 24.0" analog/digital LCD display that offers a 1000:1 contrast ratio, 1920 X 1200 resolution, pixel pitch of 0.270mm H/V, Xtrawide™ 178°/178° viewing angle, scanning frequency of 30-81 kHz horizontal and 56-75 Hz vertical. It features MagicColor Pro, MagicBright, MagicTune, MagicRotation, and PIP/PBP.

24 inch screen

178 deg. viewing angle

Viewable screen size. Wide viewing angles along with bright colors make for a very favorable viewing experience.

Wider viewing angles make sure you can see objects on your screen even when you're reaching for your popcorn.

16.7 million colors

1000:1 contrast ratio

Maximum Colors. Be the recipient of clearer brighter imagery with the wide spectrum of colors offered by SAMSUNG monitors.

Most often talked about with LCD monitors, is the measure of the difference of brightness levels between the brightest white and the darkest black. With a contrast ratio of 1000:1 you are assured crisp easy-to-view images.

MagicBright

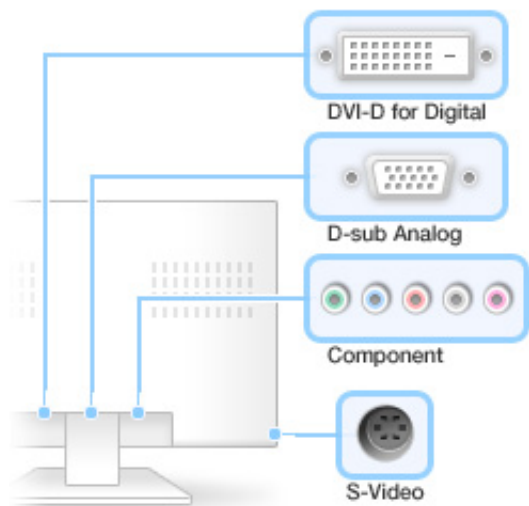

external AV devices

MagicBright is a new feature providing the optimum viewing environment depending on the contents of the image you are watching. Currently four different modes are available: text, internet, entertain and custom. Each mode has its own pre-configured brightness value. You can easily select one of four settings by simply pressing the MagicBright control button.

Supports external AV devices With CVBS and S-video connector, can be connected to various AV devices such as TV, DVD player, VCR, audio, camcorder, as well as computers.

dual interface

Our advanced display devices are capable of handling both analog video signals for present and digital video signals for the future. Whatever the signal sources are, our monitor processes those signals to give you an optimal viewing experience.

MagicTune

SAMSUNG's OSD solution MagicTune provides simple and convenient adjustment to the best image quality. MagicTune is ideal for experts like photographers, designers, and multimedia artists, by providing the most userfriendly and customized color adjustment function.

wall and arm mount

Designed to meet VESA standards to accommodate any display type.
Fits any environment whether on your desk, on the wall or to any position with arm mount.

MagicRotation

MagicRotation software from SAMSUNG provides the user with a rotation feature (90 orientation) that facilitates the optimum utilization of computer display screen.
